### Career Objective

Dedicated Junior Frontend Developer with hands-on experience in building responsive frontend and scalable full-stack applications using React, Node.js, Express, and MongoDB. Quick learner and eager to contribute technical skills to innovative projects and grow professionally.

### Skills

**Language:** C, C++, Javascript

**Frontend:** ReactJs, React Router, TailwindCSS

**Backend:** ExpressJS, NodeJS, Firebase (Auth, Hosting)

**Database:** MongoDB

**Tools & Deployment:** Git, GitHub, Vercel, Netlify

**Soft Skills:** Team Collaboration, Time Management, Communication

### Projects

**2.Garment Track:** [LiveLink](#) | [Client](#) | [Server](#)

**Major Features:** A comprehensive inventory and order management system for garment businesses, featuring seamless payment integration and real-time dashboard analytics.

- Secure online payment processing with automated order confirmation and success redirection.
- Protected routes for users, managers and admin with secure Firebase Authentication and login persistence.
- Interactive product details and order flow that intelligently prompts unauthorized users to log in before purchasing.

**Technology Used:** React, Node.js, Express.js, MongoDB, JWT Authentication, Tailwind CSS / CSS, REST API

**2.Travel Ease:** [LiveLink](#) | [Client](#) | [Server](#)

**Major Features:** A responsive travel planning application that helps users create personalized itineraries with budget estimates and real-time destination insights.

- Firebase Authentication for secure user login, signup, and session management
- Interactive itinerary builder with add/remove activities
- Secure user authentication for saving trips

**Technology Used:** React, Node.js, Express.js, MongoDB, Firebase Auth, Stripe API, Tailwind CSS, TanStack Query, Axios.

**3.Care Nest:** [LiveLink](#) | [Client](#)

**Major Features:** A full-stack home care service platform connecting families with caregivers for elderly and newborn care.

- Integrated Nodemailer for generating and sending professional HTML invoices upon booking.
- Secure system for booking care services with real-time status tracking.
- Implemented Next-Auth with custom Middleware for secure user session and role-based access.

**Technology Used:** Next.js (App Router), MongoDB, Next-Auth, Tailwind CSS, Nodemailer, REST API.

### Education

Pallabi Government College | BBS in Accounting | 2021-2025

### Languages

Bangla (Native) || English (Fluent) || Hindi (Conversational)
